In the considered opinion of the Trustees the scope and nature of the personal data held by the Luton Music Club is not sufficient to warrant the appointment of a Data Protection Officer.

## Data protection principles

### **a) We fairly and lawfully process personal data in a transparent way**

Luton Music Club will only collect data where lawful and where it is necessary for the legitimate purposes of the group.

- A member's name and contact details will be collected when they first join the group, and will be used to contact the member regarding group membership administration and activities. Other data may also subsequently be collected in relation to their membership, including their payment history for 'subs'.
  - Lawful basis for processing this data: Contract (the collection and use of data is fair and reasonable in relation to Luton Music Club completing tasks expected as part of the individual's membership).
- The name and contact details of volunteers, employees and contractors will be collected when they take up a position, and will be used to contact them regarding group administration related to their role.

Further information, including personal financial information and criminal records information may also be collected in specific circumstances where lawful and necessary (in order to process payment to the person or in order to carry out a DBS check).

- Lawful basis for processing this data: Contract (the collection and use of data is fair and reasonable in relation to Luton Music Club completing tasks expected as part of working with the individuals).
- An individual's name and contact details will be collected when they make a booking for an event. This will be used to contact them about their booking and to allow them entry to the event.
  - Lawful basis for processing this data: Contract (the collection and use of data is fair and reasonable in relation to Luton Music Club completing tasks expected as part of the booking),
- An individual's name, contact details and other details may be collected at any time (including when booking tickets or at an event), with their consent, in order for Luton Music Club to communicate with them about and promote group activities. See 'How we get consent' below.
  - Lawful basis for processing this data: Consent (see 'How we get consent')
  - Pseudonymous or anonymous data (including behavioural, technological and geographical/regional) on an individual may be collected via tracking 'cookies' when they access our website or interact with our emails, in order for us to monitor and improve our effectiveness on these channels.   - Lawful basis for processing this data: Consent (see 'How we get consent')

**b) We only collect and use personal data for specific, explicit and legitimate purposes and will only use the data for those specified purposes.**

When collecting data, Luton Music Club will always provide a clear and specific privacy statement explaining to the subject why the data is required and what it will be used for.

**c) We ensure any data collected is relevant and not excessive**

Luton Music Club will not collect or store more data than the minimum information required for its intended purpose.

E.g. we need to collect telephone numbers from members in order to be able to contact them about group administration, but data on their marital status or sexuality will not be collected, since it is unnecessary and excessive for the purposes of group administration.

**d) We ensure data is accurate and up-to-date**

Luton Music Club will ask members, volunteers and staff to check and update their data on an annual basis. Any individual will be able to update their data at any point by contacting the Secretary.

**We ensure data is not kept longer than necessary**

Luton Music Club will keep records for no longer than is necessary in order to meet the intended use for which it was gathered (unless there is a legal requirement to keep records).

The storage and intended use of data will be reviewed in line with Luton Music Club data retention policy. When the intended use is no longer applicable (e.g. contact details for a member who has left the group, or as required by HMRC for Gift Aid on donations), the data will be deleted within a reasonable period.

### **e) We keep personal data secure**

Luton Music Club will ensure that data held by us is kept secure.

- Electronically-held data will be held within a password-protected and secure environment
- Passwords for electronic data files will be re-set each time an individual with data access leaves their role/position
- Physically-held data (e.g. membership forms or email sign-up sheets) will be stored securely in the appropriate committee member's house.
- Access to data will only be available to relevant trustees/committee members where it is clearly necessary for the running of the group.

### **f) Transfer to countries outside the EEA**

Luton Music Club will not transfer data to countries outside the European Economic Area (EEA), unless the country has adequate protection for the individual's data privacy rights.

## Individual

When Luton Music Club collects, holds and uses an individual's personal data that individual has the following rights over that data. Luton Music Club will ensure its data processes comply with those rights and will make all reasonable efforts to fulfil requests from an individual in relation to those rights.

### **Individual's rights**

- *Right to be informed:* whenever Luton Music Club collects data it will provide a clear and specific privacy statement explaining why it is being collected and how it will be used.
- *Right of access:* individuals can request to see the data Luton Music Club holds on them and confirmation of how it is being used. Requests should be made in writing to the Data Protection Officer and will be complied with free of charge and within one month. Where requests are complex or numerous this may be extended to two months
- *Right to rectification:* individuals can request that their data be updated where it is inaccurate or incomplete. Luton Music Club will request that members, staff and contractors check and update their data on an annual basis. Any requests for data to be updated will be processed within one month.
- *Right to object:* individuals can object to their data being used for a particular purpose. Luton Music Club will always provide a way for an individual to withdraw

consent in all marketing communications. Where we receive a request to stop using data we will comply unless we have a lawful reason to use the data for legitimate interests or contractual obligation.

- *Right to erasure:* individuals can request for all data held on them to be deleted. Luton Music Club data retention policy will ensure data is not held for longer than is reasonably necessary in relation to the purpose it was originally collected. If a request for deletion is made we will comply with the request unless:
  - There is a lawful reason to keep and use the data for legitimate interests or contractual obligation.
  - There is a legal requirement to keep the data.

*Right to restrict processing:* individuals can request that their personal data be 'restricted' – that is, retained and stored but not processed further (e.g. if they have contested the accuracy of any of their data, Luton Music Club will restrict the data while it is verified).

Though unlikely to apply to the data processed by Luton Music Club, we will also ensure that rights related to portability and automated decision making (including profiling) are complied with where appropriate.

## Member-to-member contact

We only share members' data with other members with the subject's prior consent

As a membership organisation Luton Music Club encourages communication between members.

To facilitate this:

- Members can request the personal contact data of other members in writing via the Secretary. These details will be given, as long as they are for the purposes of contacting the subject (e.g. an email address, not financial or health data) and the subject has consented to their data being shared with other members in this way

## How we get consent

Luton Music Club will regularly collect data from consenting supporters for marketing purposes. This includes contacting them to promote performances, updating them about group news, fundraising and other group activities.

Any time data is collected for this purpose, we will provide:

- A method for users to show their positive and active consent to receive these communications (e.g. a 'tick box')
- A clear and specific explanation of what the data will be used for (e.g. 'Tick this box if you would like Luton Music Club to send you email updates with details about our forthcoming events, fundraising activities and opportunities to get involved')

Data collected will only ever be used in the way described and consented to (e.g. we will not use email data in order to market 3rd-party products unless this has been explicitly consented to).

Every marketing communication will contain a method through which a recipient can withdraw their consent (e.g. an 'unsubscribe' link in an email). Opt-out requests such as this will be processed within 14 days.

## Data Breaches

Luton Music Club takes any breach of data seriously. A data breach could be the erroneous or accidental:

- Loss of data – e.g. not knowing where physical or digital data is stored or how to access it, including devices being lost or stolen.
- Destruction of data – both physical and digital
- Corruption of data – e.g. changing data without permission or good reason or changing it with permission or good reason but incorrectly, either by Luton Music Club staff, volunteers or third parties
- Unauthorised use of data e.g. sending an email that requires consent where consent has not been given.
- Unauthorised access to data – e.g. an (unauthorised) third party gains access to data stored by Luton Music Club
- Unauthorised disclosure of data – e.g. Luton Music Club passing data to a third party where we do not have a lawful basis to do so.

Luton Music Club acknowledges that a data breach can occur through both action and inaction on the part of the Data Controller or Processor.

### How we prevent Data breaches

Luton Music Club has the following safeguards to ensure against possible data breaches:

- Data is stored on secure systems with access controlled by passwords
- Automatic, and manual, processes ensure passwords are updated on a regular basis, including as soon as an individual's role within, or relationship to, Luton Music Club changes.
- Automatic, and manual, processes ensure mass communications are only sent in line with mailing preferences.

### If a Data breaches occurs

If anyone associated with Luton Music Club thinks a data breach has occurred then it should be reported to any of the trustees.

The trustees will work with relevant individuals to investigate the potential breach. The response plan will include the following steps:

- Establish if a breach has occurred.
- Investigate if any measures can be taken to contain or minimise the breach.
- Establish the full extent and nature of that breach – including what the breach was, how many data subjects are affected and who they are.
- Establish if the data breach has, or is likely to, pose a significant risk to the data subjects rights and freedoms:
  - If the breach does pose a significant risk to the data subjects rights and freedoms we will:

- Ensure all trustees are informed
- Report the breach to the Information Commissioner's Office (ICO). This will be done in-line with their guidelines and as soon as possible, but no later than 72 hours after the breach occurred
- Report the breach to any other relevant regulators, including the Charity Commission and OSCR.
- Report the breach to the data subjects affected, informing them of what has happened, possible and likely impacts it might have on them and what we are doing to manage the breach and reduce risk of future occurrences
- If the breach does not pose a significant risk to the data subjects rights and freedoms we will:
  - Document details of the breach and the decision making process involved in assessing the severity and risk of the breach.
  - Ensure the breach is reported to the Board of Trustees at the next planned full board meeting.

Conduct an internal investigation into how the breach happened and what measures need to be taken to minimise the risk of similar breaches occurring in the future.

It forms part of Luton Music Club Data Protection Policy.

### Roles and responsibilities

Accordingly, no Data Protection Officer is appointed. The Board of Trustees is the Data Controller for the Luton Music Club. The trustees are responsible for the secure and fair retention and use of data by Luton Music Club. Any questions relating to data retention or use of data should be directed to any of the trustees.

## Regular Data Review

A regular review of all data will take place to establish if Luton Music Club still has good reason to keep and use the data held at the time of the review.

### Data to be reviewed

- Data stored on third party online services (e.g. Dropbox)

- All reasonable and practical efforts will be made to remove data stored digitally.

- Where deleting the data would mean deleting other data that we have a valid lawful reason to keep (e.g. on old emails) then the data may be retained safely and securely but not used.

## Criteria

The following criteria will be used to make a decision about what data to keep and what to delete.
